E. A. Rogers and Ralph Dillon said, however, the Courier goes for one year.

County Treasurer Oliver advertises for bids for road bonds in this paper.

Freighter John Chambers pulled this morning with a big load of goods from Bashford to the miners at the Bradshaw mountains. Mr. Chambers has one of the best fighting outfits which come to Prescott.

Harvey Hubbs, treasurer of Mohave County and treasurer of the Mohave County Miner, had his scalp nearly torn off, his collar bone, one of his arms and his right leg broken, by being thrown out of a wagon by a runaway team last week.

A very pleasant party was given to Mr. and Mrs. Louis Dugas on Sunday evening in honor of the latter's third birthday of their daughter, Miss Lizzie Dugas, and the family left to-day for their ranch near Sycamore street.

Knights of Pythias lodge will be organized at Kingman next Saturday night. This order is spreading rapidly in this territory. The lodge in Prescott has a large membership and is financially prosperous.

The machinery and all material for the Jerome bucket line has arrived at the work of building the line is being rapidly pushed forward. The power house for propelling the cable, which will operate the road, will be placed on Mescal gulch, about midway between the terminal points. The line will be nearly five miles in length.

As a creditor of R. W. C. Merring, of the Jocular-Minor is pleased to know that the gentleman is still here. He may live long enough to vindicate his long over due account this office, although if he manifests no greater activity in the matter in the future than he has in the past he would be as old as Methuselah before he accomplished it.

In a letter to Prof. Thomas Miss Edie L. Murphy says: "It is difficult to know that you and the railroad, were on the line with my poor effort. I shall be glad to stop in Prescott on my return. Experience there was so pleasant I would like to repeat it. The only thing is this: I might mar the good impression I have already made, but I do read again I shall put forth my effort to do my best."

W. C. Potts was in town to-day in Fairview, on the line of the P. & M. railroad, where he was making outfit ready to commence work on the Jerome branch. He says that he has been in waiting now some time for orders to proceed on the work. The survey has been made and everything is in readiness for the graders. The road will be about sixteen miles in length and extend about two and a half miles beyond Sander's station. It is all easy grade and light work except the last two or three miles.

While at Big Bag recently, Prof. Ramsey, of the Tucson University, was botanizing up Grape Vine canyon, which, though small, is very rich in small geyser-like fountain issues from a rock at the head of the canyon, supplying delightful water at all times. The professor, after a long ramble, sat down under a cottonwood to rest. He took off his hat and looked up. He was in a state above him lay two immense wild cats. Being unarmed the professor hurried to Joe Mayer's camp, procured a gun and succeeded in killing one of the cats. Its companion escaped during the professor's absence.—Phenix Herald.

Miss Addie L. Murphy has been giving elocution entertainments in California and has met with wonderful success. She will appear at the opera house here again next Tuesday evening.

Thomas Wing, of Granite Belts ranch, left a box of very choice Crawford peaches at this office today. They were not large owing, he says, to the overloaded condition of the tree, but they were of a very superior flavor.

An old citizen of Prescott who has made a special study of the climatology, meteorology and cyclonic phenomena of this section, having had but little else to do, and who has never yet failed to be correct in any of his predictions says that the present warm wave, which has settled down here, will continue until the weather gets cooler.

A case of most wonderful vitality is reported from Kane, Pa. About three years ago Robert McKnight, aged fifty-five, while working on a saw mill at Kane stooped down to pick up a monkey-wrench which had fallen right beside the saw, and when he went to arise to his feet he was struck by the saw which cut through his skull and split his head open. The doctors were called and on a large portion of his brain. He lived for over two weeks after the accident and for over a week was improving.

Ben Ryboun returned last night from his trip to Big Bug. He failed to secure a pack of Robert McKnight's famous peaches, but was well pleased with the haul he had secured and learned that he had gone into the Bradshaw mountains. As the man accused of this crime owns a mining claim for which he has a standing offer of \$5,000, and as there are certain circumstances connected with the alleged peaches transaction, that have not been told yet, it is not likely that the man, whose name is Bounce, will leave the country, but he will in all probability remain where he can be found when wanted.

Happy Hoosiers.

Wm. Tiramonts, postmaster of Idaville, Ind., writes: "Electric Bitters has done more for me than all other medicines combined, for that bad feeling arising from Kidney and Liver trouble." John Leslie, farmer and stockman, of same place, says: "Electric Bitters has cured the best Kidney and Liver medicine, made me feel like a new man." J. W. Gardner, hardware merchant, same town, says: "Electric Bitters is just the thing for a man who is all run down and don't care whether he lives or dies." Electric Bitters has increased appetite and felt just like he had a new lease on life. Only 50 cents a bottle, at W. W. Ross' Corner Drug store.

Closing of the Congress Mill.

Rumors of various sorts have been afloat during the past few days, concerning the closing down of the Congress mill, so that the JOURNAL-MINER man called on Superintendent Murphy to-day and asked him concerning the truth of such rumors.

"Yes," said Superintendent Murphy, "I have given orders to close the mill down on the first. The reason for doing so is that the construction of the S. F. & P. Railroad is now an assured fact and as is well known the Congress mining company is financially fixed so that they are not going to build any more mill but is assisting financially in the construction of this road. The building of the road means a saving to the company in transportation from \$75,000 to \$100,000 per year, an item certainly worth saving."

"The mine is looking better to-day," continued Mr. Murphy, "than it has at any time since work was commenced on it, and while of necessity the working force will be reduced some, work will be continued in the mine until all facilities at the mill have been removed. The ore have given exhausted or until the mill starts up again. The freighting outfits have also been reduced but there are enough concentrates and ore on hand now to keep a few teams employed probably all of next month. We will have on hand several months' supplies of all kinds on hand, and within six months of the completion of the railroad to the mine, it will be started up again and the product stored until the road is completed there."

"If the people of Arizona would have a north and south railroad they should in every practical way indicate their willingness to co-operate with those who propose to invest in the enterprise," said Superintendent Murphy, "and I must have protection for the mine until before it will make good." —Tucson Star.

The goldendrina, which is a sure cure for the bite of the rattlesnake, scorpion, tarantula, black spider or any other poisonous insect, is not the mock orange or wild pomegranate. Goldendrina is a small moss like plant, while the mock orange is a running vine similar to the water-melon. It will not cure the bite of the rattlesnake, but it is one of the most useful medicinal plants on the Pacific Coast.—Yuma Sentinel.

Prescott has always been noted for the modesty of its people. There is nothing hogish about them, but there are just two prizes offered by the New Mexico Fair Association that it is proposed to win by our boys. One is the Champion Firemen's Belt now held here and the other is the \$300 militia prize. Due notice is served on the rest of the southwest that these prizes are to be located in this pine clad mountain city.

A. Freeze and C. A. Means have received the agency for northern Arizona for the Munson lightning conductors, the best protectors against lightning made. These celebrated conductors are in use on all the government buildings in Washington and have received the highest testimonials from parties who have used them. The frequency with which lightning has struck of buildings the propriety of putting up lightning rods. Put particulars concerning these conductors will be furnished on application at Mr. Freeze's place of business.

Mining Intelligence.

A number of teams have been withdrawn from the Congress mine.

D. C. Thorne and H. A. Owens have gone to Lynx creek to expert a mine there.

A discovery of ore, supposed to be tin, has been made near Skull valley. Geo. Merwin, who is a tin expert, went out to-day to examine and report on our loads of onyx will be shipped to New York very soon. J. W. Dougherty will accompany the shipment and will meet W. O. O'Neill in that city.

A lot of machinery for the Tiger mill is expected here daily from San Francisco. Immediately upon its arrival it will be forwarded to the mine and placed in position, and the mill will be started up about the 15th of the month.

The Phoenix Herald is correct when it says: "Cochise and Pima counties will make the full fall if they hold their first place in the mining business. Yavapai is rapidly developing a large number of first-class mines, and some of them are now the largest mines of gold and silver in Arizona."

An expedition is being talked up for the purpose of making search for the lost Pegleg gold mine supposed to be in the desert. Mr. Merwin, thirteenth of Indian Wells. It will leave Yuma as soon as cool weather comes, and devote the coming winter in search of it, if it is not found before that time.—Sentinel.

L. D. Thoman, who is financially interested in the Clarence Ruby mining company, left to day to visit that property and have a thorough examination made with a view of starting it up again if the examination should prove satisfactory. Should the report be adverse to working the property the machinery and other appurtenances will be offered for sale.

Remarkable Rescue.

Mr. Michael Curtain, Plainfield, Ill. makes the statement that she caught cold, which settled on her lungs, she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her husband suggested Dr. King's New Discovery for consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use, and after taking ten bottles found herself sound and well, now does her own housework and is able to do all her usual duties.

Church services will be held to-morrow at 11 a. m. and 8 p. m. in the Baptist, Methodist, Congregational and Episcopal churches. Sunday school will be at 12 o'clock in all but the Episcopal church, where it is held at 10 a. m. The Young People's Society of Christian Endeavor will convene at 7:15 p. m. at the Congregational church. Rev. Mr. Erison will conduct the meeting. The society cordially invites the attendance of all.

W. C. Barnes, of Holbrook, recently brought 200 head of cows down from his ranch in Williamson valley, and put them on pasture near Tempe, where he fattens beef. Mr. Barnes says that if he makes a success of fattening his mountain raised cows on alfalfa, he has 1,000 head that he will bring down at once. He thinks cows are not profitable as range cattle after they are seven or eight years old, and he feeds them on alfalfa. He says that a beef of this profit he will clear his range of them every year.—Phenix Gazette.

David Balz advertises his new stage line, via Castle creek and Walnut Grove, in this issue. Stages leave Prescott every Monday and Thursday at 8:30 o'clock and will carry passengers from Prescott as far as Walnut Grove postoffice. Mr. Balz says that if the board of supervisors will repair about six miles of road it would enable him to carry passengers clear through by this route which is the shortest between Prescott and Phenix. George Schuerman is his agent in Prescott.

We are indebted to Mr. A. W. Edwards for a present of some wine, whose quality is a rare treat to the palate. The wine bears the label of the Los Gatos and Saratoga Wine company, who have established an enviable reputation for the product of their cellars. The winery is located in the foot hills of the Santa Cruz mountains, and the climate and soil peculiar to that section, furnish a product which is fast being recognized as the criterion of excellence in California wines. We believe the quality of these wines is well known to the dispensers of liquids in this town.

Our contemporary publishes a letter from Stanton, which says that a very rich strike has been made in a narrow gulch on the west side of Rich hill. One Mexican is reported to have taken out \$47 in coarse gold in half a day while some twenty or twenty-seven of them took out between \$400 and \$500 in the same time. This discovery has naturally created considerable excitement in that vicinity. This is the hill from which \$400,000 in gold was taken within ten days.

Miss I. C. De Velling, national lecturer and organizer for the W. T. U., will arrive in Prescott on Saturday, September 1. Hon. T. J. Butler, who recently met the lady in Flagstaff, speaks of her as being very intelligent and eloquent and is devoted to the cause of temperance. Miss De Velling has also received very flattering notices from the press wherever she has appeared.

The Prescott branch of the National Association of Women's Associations of Salt Lake, Utah, met last evening at the office of the secretary C. R. Martindell. This was the first meeting held by the local branch and was well attended. After discussion of various topics the meeting adjourned until this evening when it will meet at the same place at 8 o'clock. Members are all requested to be present prepared to pay their August dues.

R. W. Meador and M. Bradley have made a rich strike of gold ore in the Shiloh mine, on the Hassayampa. The claim has been located and re-located for the past twenty years but very little work has ever done on it. Messrs. Meador and Bradley, however, went to work developing it and have been rewarded by striking a body of ore three feet in width which will average \$25 per ton. They have taken out about a ton of ore. By sorting carefully they expect to get some out of this, which will go from \$500 to \$800 per ton which they will have worked at Harlan's mill.

Lightning rods have heretofore been but little used in this section although thunder storms, during two months in summer, are of frequent occurrence. During the past few years there has not been a season that lightning has not struck one or more times in Prescott, in one instance resulting in the complete destruction of a barn and all its contents. Other buildings have also been damaged. It is therefore presented itself, if it is not a good investment to purchase lightning rods for protection. W. A. Freeze and C. A. Means are prepared to answer this business problem satisfactorily, being agents for Munsell's lightning protector.

The coal prospect hole is now down 130 feet. Several small strings of coal have been encountered in sinking the hole, but no large body has been found yet. A very strong smell of gas issued from the hole last evening.

That tired feeling is entirely overcome by Hood's Sarsapilla, which creates an appetite, rouses the liver, cures headache, and gives renewed strength and vigor to the whole body. Be sure to get Hood's Sarsapilla, which is peculiar to itself. Sold by all druggists.

Yesterday's train due at 3 o'clock did not arrive until 6:15 p. m. The delay was caused by the burning of a car load of hay. The passengers, mail and express were transferred to a freight car and brought in from the place of the accident which is about fifteen miles from Prescott.

Owing to the material of which it is made and the manner of its construction, Munson's new celebrated copper lightning conductors are pronounced to be the best and afford the most complete protection against disaster by lightning of any ever invented. Messrs. W. A. Freeze and C. A. Means are agents in Prescott.

Bright and early this morning, O. Homo being released from his confinement, struck out for the tall timber. Before going he told Sheriff Kelton that had in view, among other matters of moment, the exploration of the little difficulty now existing in southern California known as the Salton Lake. Arrayed in a walking costume, in style before the flood, and armed with a small vial containing, as he told the sheriff, "elixir of life," he disappeared like a fleeting shadow down Toughnut gulch, defying the world at large to tread on the tail of his coat.—Tombstone Prospector.

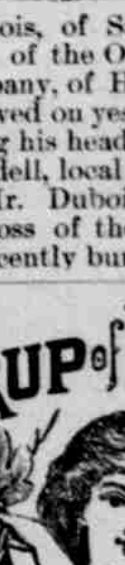

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, allays pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five a bottle.

The excitement over the rich gold discovery at Pine Nut, Nevada, continues. A recent telegram says: Fifteen sacks of gold-bearing ore were brought in from the Zirn mine at Pine Nut to-day guarded by armed messengers. Each sack will average \$1000. A gentleman from San Francisco, representing an Italian mining syndicate, offered Shutz, Zirn's partner, \$200,000 to be deposited in sixty days for the mine. This was refused.

S. V. Dubois, of San Francisco, special agent of the Orient Fire Insurance company, of Hartford, Connecticut, arrived on yesterday's train and is making his headquarters with C. B. Martindell, local agent of the company. Mr. Dubois is here to adjust the loss of the Aztec mill, which was recently burned.

Steady Progress

Has characterized Hood's Sarsaparilla ever since it was placed before the public. Wherever it is sold, its sales have grown from one year, until now it is the most popular and most successful medicine offered. Any druggist will confirm this statement. The secret of this success lies in the fact that Hood's Sarsaparilla is a medicine of merit. It does actually accomplish all that is claimed for it, and when given a fair trial, is reasonably certain to be of benefit.

Positive Statements.

"Since Hood's Sarsaparilla has been in my hands for sale I have had frequent and unreserved testimonials in its favor. Although carrying this preparation for less than one year, my sales have been greater than of any similar preparation, and the testimonials in its favor are at once positive and personally noticeable." A. WINSLOW, Buxtonburg, Cal.

Sells On Its Merits.

"My boys say, 'Papa, why don't you buy more of Hood's Sarsaparilla at a time; we are always short.' It sells on its own merits." F. BRAD, Portland, Ore., the oldest druggist in Oregon.

Mining Intelligence.
FROM MOHAVE COUNTY.

The Mohave Miner contains the following:

Owing to the fact that suits involving the title to the Diamond Joe mine in Cedar district will be tried in the District Court next month, work will be temporarily suspended on that property. The mine, during the past eight months, has been opened up in good shape. There are now nearly one thousand feet of tunnels, shafts and levels on the vein. The ore chute has kept a regular width of over two feet for ninety feet in depth and shows up bigger and better than ever in the bottom. The mine should have a mill erected on it right away that the thousands of tons of ore, too low grade for shipment, may be profitably worked. Incidentally we mention the fact that no ore of a value of less than one hundred dollars can be shipped with profit from that district.

The Copper mine has been shut down. Defective machinery was the primary cause of the shut down. The mine has been a large producer of the precious metals, and as soon as the replacement of the present machinery can be made to work will be started up on a larger scale than ever.

The Olympia mine, formerly the Martiniz, is being worked by James Bissett and J. C. Odgen. This is the first work done on the claim, although the croppings in many places show considerable high grade mineral. The shaft has been sunk twelve feet, three tons of ore running three hundred dollars in silver per ton have been taken from it. Messrs. Bissett and Odgen are first-class miners and will make the property give a good report of itself while it remains in their hands.

Personal.

Mrs. Cage, wife of the station agent of the P. & A. C. railroad at Prescott, accompanied by her little daughter, will leave for the east tomorrow for a visit to relatives.

Sheriff and Mrs. J. R. Lowry returned Monday from a visit to North Carolina. The former found his father in better health than he had expected, although the old gentleman is quite feeble.

Walter Chandler, general eastern purchasing agent for the Commercial Mining Company, who has been visiting Prescott for several days, will leave to-morrow for Bisbee on business for the company.

Mrs. W. E. Hazeltine and her sister, Miss Snyder, came in on yesterday's train from a protracted visit to California. Mr. Hazeltine accompanied them as far as Prescott Junction and continued his journey east, where he will remain until December visiting his relatives and recuperating his health, which is improving slowly.

Born.
